

AZURE COST OPTIMIZATION STUDY

Get the most value out of your Cloud investments

Cegeka is your guide to maximize the efficiency of your cloud environment. We help you improve financial governance of your Azure solutions and optimize costs to empower you to do more with less— so that you can get the most value out your Cloud investments.

Challenges

Why Azure Cost Optimization

 **Unexpected increases in Azure spending**

Are you unable to understand sudden increase in costs for Azure and from where exactly you are accruing costs in the cloud?

 **Difficulty managing multiple cloud subscriptions**

If you only have a few subscriptions, it is fairly easy to manage them independently. But what if the amount of subscriptions grow and you start to encounter difficulties on managing efficiently Access, Policies and Compliance?

 **Confusion about what licensing options to choose**

Microsoft Azure is one of the biggest cloud platforms in the world. However, licensing is very complex and confusing. Avoid pitfalls and cut through the specific jargon by understanding the Azure pricing structure.

Our Approach

Together, we take a three-phased approach to determine your path forward.

Assess and discover

The analysis phase is crucial. It allows us to gather accurate data from your IT environment relative to consumption, as well as any characteristics influencing costs. At the same time we identify your organization 's cloud needs and provide you continuous feedback on progress made.

Plan & decide

When all potential optimizations of your environment are identified and described in the study report, we discuss insights and determine what optimizations are top priority. To ensure quick ROI, each optimization is combined with information corresponding cost saving and also combined with recommendations for its implementation.

Finalization

Based on the feedback, the study report will be updated and a more detailed action plan will be provided which will not only include the changes needed to reduce costs but also the changes allowing to keep the environment cost-efficient over time.

Solutions

Continue your cost-efficient cloud journey with Cegeka

Optimization deployment

Cegeka can perform the deployment of the optimizations defined in the cost optimization study based on the detailed implementation steps in the final report.

Cegeka managed services

Cegeka is a Microsoft Gold partner with multiple Azure advanced specializations in place. Thanks to its continuous cloud activities with +60 Azure customers, our +100 Azure certified engineers are excited to manage end-to-end your cloud environment and support you in unlocking the real potential of Azure cloud.

Why Cegeka?

In close cooperation

As a family-owned, no-nonsense company, we prefer working in close collaboration with your team throughout the entire process: from assessing your needs and defining the scope of the project to optimizing your cloud landscape.

We are vendor independent

As we work with many different business partners, we are not tied to a specific platform or service. That means we can choose the solutions that best meet your needs.

We offer end-to-end solutions

As we manage and optimize both your applications and infrastructure projects in an integrated way, we have a comprehensive view of cloud needs and requirements.

Combining experience with a continuous quest to learn

With more than 25 years of experience in IT infrastructure solutions and a continuous focus on learning, even the latest cloud developments hold no secrets for Cegeka experts.
